

Research Study

**Are you a person with a neurological condition?
What does good peer support look like to you?**

About the study

The Summer Foundation and La Trobe University are doing a study to try and understand what makes great peer support for people with disability. This knowledge will help shape the future of peer support practices and will ensure peer support programs are as valuable as possible.

What to expect

If you are a person with disability, we want to speak with you to understand what you would like from peer support.

You will participate in a 1:1 interview via Zoom, phone or in-person.

You will receive a \$50 gift voucher to thank you for your time and for sharing your experiences.

Ethics approval: HEC24396

Who can participate?

- You have any amount of experience with peer support – even if you have limited experience with it, we still want to speak with you
- You have a disability due to a neurological injury or condition
- You are 20 – 65 years of age

For more information, please get in touch with us.
